# ARISE e-learning platform - Free Summer Training!

*ARISE e-learning platform has a selection of training on energy efficiency applied to BIM.*

A screenshot of the ARISE website homepage. At the top left is the ARISE logo, followed by navigation links: COURSELIST | TRAINEE | TRAINER. At the top right are links: ABOUT | EXPLORE | ARISE PROJECT | CONTACT US. The main banner features a blue background with the ARISE logo and the text "THE NEW SYSTEM OF TRAINING AND RECOGNITION OF SKILLS". Below this, there is a man in a blue polo shirt and brown trousers holding a tablet, and a woman in a white suit with her arms crossed. Below them are two buttons: "TRAINEE" and "TRAINER". To the left of the buttons, there is text: "ARISE's global goal is to revolutionize the learning process by changing both delivery and recognition of sustainable energy skills in the construction sector." and "The new system of training and recognition of skills will be valid across the EU, thus increasing the spread of skilled workforce in the building market." At the bottom of the banner, it says "RELEVANT - INNOVATIVE - SCALABLE - SECURE".

**We have more than 18 trainings available on the ARISE platform.**

The Upskilling trainings cover the following topics:

- Digital Construction

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

- **BIM BENEFITS**
- BIM Dimension
- BIM maturity stages
- BIM Standards
- BIM tools for energy efficiency
- And much more.

### Course Offers

Follow the training at your own time at your own pace, anywhere in the world at any time. Register to the ARISE platform and enrol on the upskilling trainings most relevant to you.

# ARISE Online Workshop

ARISE ONLINE WORKSHOP

**10th September 2024**

11:00 - 12:30(CET)

## Effective market implementation of sustainable energy skills

Overview of best practices and improvement of  
recognition of digital and sustainable energy  
skills in the construction sector.

This project has received funding from the  
European Union's Horizon 2020 research  
and innovation programme under grant  
agreement No 101033864

ARISE's overall objective is to revolutionise the learning process by changing both the delivery and recognition of sustainable energy skills in the construction sector. The new system of training and recognition of skills will be valid across the EU, increasing the spread of a skilled workforce in the construction market. ARISE stimulates demand for sustainable energy skills by providing clear learning pathways, transparency of training transactions and recognition of qualifications.

### Full agenda

This workshop will be organised as an international online event to allow stakeholders of the building supply chain from different countries to share experiences and opinions on the market demand and implementation of competences and skills in the procurement of building projects. The outcome of the event will be brought to the

member states to adopt a common approach.

### Registration

# ARISE Open Institutional Forum

## LinkedIn Group

Join ARISE LinkedIn forum and send us your feedback on the ARISE e-learning platform, learning materials, badges and any other relevant green and digital skills upskilling topic.
